Subject: Letter of Interest for the railway projects in Lebanon

To: Prime Minister, H.E. Prof. Hassan DIAB

From: QU JIANG, General Manager, Overseas Business Department SinoHydro Bureau14,co.,LTD

Letter of Intent

Your Excellency Prime Minister,

Considering the very difficult times Lebanon is going through, we sincerely wish to offer our services to your government and help to overcome these difficulties, in order to deliver to the whole country the expected development in the fields of infrastructures and energy.

During our visit in Lebanon in 2019, we have discussed various railway projects, including North-South project, Mass transit system in Beirut and the tunnel to be built either for the railway or for both railway and highway. We believe these projects are extremely important, and we are keen to participate in their implementation, as well as in any other infrastructure projects. We have signed a Memorandum of Understanding on May 29th, 2019 with the Minister of Public Works and Transport. We have also submitted in September 2019 a first Preliminary Report for the Mass Transit System in Beirut Feasibility Study.

SINOHYDRO BUREAU 14 CO.,LTD is a large Chinese State owned enterprise, founded in 1954. We have our Head Quarters in Beijing, which is one of the largest contractors in China, and ranks 11th in the world international contractor on the ENR Top 225. SinoHydro is also the largest hydropower contractor in the world, and commands a 50% share of the world market in the field of hydropower, meanwhile, SinoHydro has abundant civil construction experience on the fields of railway and subway. We successively take part in the construction of the railway projects including Beijing-Shanghai express railway (with the designed speed of 300-350km/h), Guiyang-

Guangzhou express railway (with the designed speed of 300km/h), Nanping-Longyan railway (with the designed speed of 200km/h),etc. and the subway projects including Wuxi subway, Xi'an subway, Tianjin subway, Shenzheng subway and Chendu subway. We are a global leader in the ENERGY Sector and our main areas of project interest include but not limited to the following industry sectors:

- Power plants [Hydro power/thermal power, natural gas/oil power /and other types of power generation, transmission lines]
- Re-newable Energy Projects (SOLAR and Wind Projects]
- Water Treatment & Management [Drinking supplies/waste water/sewerage systems]
- Infrastructure [road/highways/railroads/water & waste water systems/ airports/harbor]
- Investment/Financing/Logistics/Trade

We may also provide consulting services to assist the project owner in obtaining financing for the implementation of infrastructure and energy projects.

We hope to start a fruitful cooperation with your esteemed government, and we are committed to deliver the projects in the best possible conditions if we are offered a chance to participate.

Looking forward for your response,

Respectfully yours

For and Behalf of
